FIG. 4 is a cross-sectional view of a catheter assembly 29. It features a central lumen 45 and an outer sheath 46. The assembly is shown in a bent configuration. The proximal end 28 has a handle 47 and a guard 48. The distal end 49 is shown with a series of segments 50. Arrows 6 and 7 indicate the direction of movement of the handle and guard, respectively. Arrows 8 and 9 indicate the direction of movement of the segments 50.

FIG. 5 is a cross-sectional view of the same catheter assembly 29, showing a different configuration. The central lumen 45 and outer sheath 46 are shown. The proximal end 28 has a handle 47 and a guard 48. The distal end 49 is shown with a series of segments 50. Arrows 6 and 7 indicate the direction of movement of the handle and guard, respectively. Arrows 8 and 9 indicate the direction of movement of the segments 50.
